"The economy is consumer-driven and 130 crore consumers in the country have the power to decide how fast

We'll talk to airport authorities: Jain on 2 Covid-positive flyers from UK slipping out

DELHI HEALTH MINISTER Satyendar Jain on Thursday said the city government will approach airport authorities here in New Delhi over a report that two Covid-positive flyers from the UK had slipped out from the airport.

Amid mounting concern over a new strain of the virus detected in UK, the Delhi government on Tuesday had said people who have arrived here recently from that country, are being traced and tested, while an institutional quarantine facility was being set up separately for positive cases at the LNJP Hospital.

At a press conference, asked about the report that two passengers from the UK, who had landed at Delhi airport on Tuesday, had further travelled to Punjab and Andhra Pradesh, despite testing positive for Covid-19, Jain said, "I have also read about it in the newspaper today". —PTI

the economy of the country can grow. The more value-added products are manufactured in the country, the more jobs opportunities it will create in the country," he added.

Product-specific warehouses to come up at ports, waterways

PRESS TRUST OF INDIA
New Delhi, December 24

THE GOVERNMENT ON Thursday said it will set up product-specific warehouses at ports and national waterways.

The purpose of development of this infrastructure is to reduce the storage losses, minimise logistic costs and facilitate distribution of cargo in the hinterland, the ministry of ports, shipping and waterways (MoPSW) said in a statement.

"The (MoPSW) intends to create product-specific warehouses or silos at various ports (including both major and non-major ports), multi modal logistics parks located near port area and alongside the national waterways," the statement said.

The ministry is targeting to develop the product-specific warehouses at ports for

cement silos, liquid tanks, chemicals tanks, cold storage, electronics product storage, and pharmaceutical storage, among others.

"While the big players have their own warehouses and storage spaces, the smaller players find it difficult to get their product-specific storage silos at various locations," the statement said.

The development of these world-class warehousing spaces will give a big push, especially to such small logistics players for their ease of doing business with better planning and inventory management, it added.

The smaller players will need to pay a nominal fee to make use of this infrastructure, it said. The statement said this will immensely benefit them as currently, their loaded trucks keep waiting to find appropriate storage near ports quite often.
