BPCL launches EV charging corridor on Delhi-Jalandhar NH

NEW DELHI: Bharat Petroleum Corporation Limited (BPCL) on Saturday announced the launch of Electric Vehicle Fast Charging Corridor on the Delhi - Jalandhar National Highway with fast charging stations at 12 BPCL retail outlets strategically located along the highway (part of NH-44) as part of its initiative to address the range anxiety of electric vehicle owners.

The 750 Km long segment of NH-44 is the fourth such Electric Vehicle Fast Charging Corridor in the country, with fast charging station at roughly every 100 Kms on both sides of the highway. Chennai-Trichy-Madurai, Chennai-Bangalore and Bangalore-Coorg were the first three Electric Vehicle Fast Charging Corridors set up by BPCL.

The EV fast chargers at BPCL Fuel Stations will help customers recharge their EVs in just about 30 minutes to get

a driving range of upto 125 kilometers after which there will be another BPCL EV charging station for EV owners going further ahead.

All EV customers will be able to use the EV fast charging stations via a pay-per-use online service. The fast chargers can be self-operated without any manual assistance though support staff will be at hand when needed.

Located at BPCL retail outlets, these EV fast Charging stations offer long distance and inter-city travellers much needed safe, well-lit and secure pit stops together with amenities like clean and hygienic wash-rooms toilets, MATMs etc for their convenience while their vehicle is being recharged. BPCL has digitised the entire EV charger locator, charger operations and transaction process through the HelloBPCL app for an online hassle free and transparent user experience.

India, US, Brazil to work together for Global Biofuels Alliance

AGENCIES

NEW DELHI, 11 FEBRUARY

With a view to facilitate cooperation and intensify the use of sustainable biofuels, Brazil, India, and the US, as leading biofuel producers and consumers, will work together during the next few months towards the development of a Global Biofuels Alliance along with other interested countries, an official statement said.

This Alliance will be aimed at facilitating cooperation and intensifying the use of sustainable biofuels, including in the transportation sector. It will place emphasis on strengthening markets, facilitating global biofuels trade, development of concrete policy lesson-sharing and provision of technical support for national biofuels programs worldwide. It will also emphasise the already implemented best practices and success cases.

The Alliance shall work in collaboration with and complement the relevant existing regional and international agencies as well as initiatives in the bioenergy, bioeconomy, and energy transition fields more broadly, including the Clean Energy Ministerial Bio-future Platform, the Mission Innovation Bioenergy initiatives, and the Global Bioenergy Partnership (GBEP).

BPCL launches EV fast charging highway corridor on Delhi-Jalandhar highway

Bharat Petroleum Corporation Limited (BPCL), a 'Maharatna' and a Fortune Global 500 Company, announced the launch of Electric Vehicle Fast Charging Corridor on the Delhi - Jalandhar National Highway with fast charging stations at 12 BPCL retail outlets strategically located along the highway (part of NH-44) as part of its initiative to address the range anxiety of electric vehicle owners.

The 750-km long segment of NH-44 is the fourth such Electric Vehicle Fast Charging Corridor in the country, with fast charging station at roughly every 100 Kms on both sides of the highway. Chennai-Trichy-Madurai, Chennai-Bangalore and Bangalore-Coorg were the first three Electric Vehicle Fast Charging Corridors set up by BPCL.

The EV fast chargers at BPCL Fuel Stations will help customers recharge their EVs in just about 30 minutes to get a driving range of upto 125 kilometers after which there will be another BPCL EV charging station for EV owners going further

ahead. All EV customers will be able to use the EV fast charging stations via a pay-per-use online service. The fast chargers can be self-operated without any manual assistance though support staff will be at hand when needed.

Located at BPCL retail outlets, these EV fast Charging stations offer long distance and inter-city travellers much needed safe, well-lit and secure pit stops together with amenities like clean and hygienic washrooms, toilets, m-ATMs etc for their convenience while their vehicle is being recharged. BPCL has digitised the entire EV charger locator, charger operations and transaction process through the HelloBPCL app for an online hassle free and transparent user experience.

Going forward, 200 such Electric Vehicle Fast Charging Corridor under the brand eDrive which carries the tagline Clean. Fast. Easy will be set up along key National Highways by 31st March 2023 as part of the drive to support and accelerate the EV adoption in India.

GAIL signs advance pricing agreement with CBDT

GAIL and the Central Board of Direct Taxes (CBDT) entered into a landmark advance pricing agreement for determining the transfer pricing margin payable on its long-term LNG sourcing contract from USA for the period of five years. The APA Scheme enhances the government's goal of

promoting a non-adversarial tax system and improve the ease of doing business in India. GAIL is the first PSU in oil & gas sector in India to successfully sign the APA. The APA was signed by Joint Secretary, FT & TR -1, CBDT Sh. Rasmi Ranjan Das and Sh. R.K. Jain, Director (Finance) GAIL.
