**Circular No. 10/2015**

No: MAT/PMC/13(133)/2015

Dated: 01.03.2015

**Sub: Rate Contract for Bioremediation.**

Corporate MM has entered into a RC valid upto Dec.2015 with OTBL for Bioremediation of oil waste. It has been noticed that work centers are asking the price of Bioremediation also along with the rates of excavating, transportation and land refilling. In this context, it is clarified that rates of items i.e. excavation, transportation and land refilling largely depend upon the local conditions and therefore rates of these activities have not been included in the RC.

In view of the above, EPC, in its meeting (04/2015) held on 30.01.2015 decided that while operating aforesaid Rate Contract, work centers should enter into contract with OTBL for Bioremediation at the rates mention in the RC. However, for other activities like excavation, transportation and land refilling, the work center can call for rate from OTBL and award a separate contract to them for these three activities on nomination basis. Further, CPA for both the contracts needs to be determined separately as per the provisions of BDP-2015.

Above guidelines should be meticulously followed by all concerned.
