Circular No. 01/2020

No: MAT/PMC/10(3)/2019

Dated: 07.01.2020

Sub: Disposal of Scrap

Reference is invited to Integrated MM Manual para 38.6.2.a, wherein it has been categorically stipulated that scrap generated and materials which become unserviceable during the process of operations should be promptly identified and disposal action initiated on the same.

EC, in its 535th meeting held on 06.11.2019 noted delays in disposal of scrap. EC has directed that scrap generated may be disposed expeditiously as the scrap so generated occupies substantial warehouse space and warehousing cost is also incurred. In view of above, work centers are advised to take timely action for disposal of scrap.

Above guidelines should be meticulously followed by all concerned.
