**Circular No. 13/2021**

No: MAT/PMC/10(3)/2021

Dated: 02.06.2021

**Sub: Disposal of Material**

Reference is invited to para 40.2.10 (b) of IMM Manual wherein it is stipulated that Material for condemnation should be arranged in smaller lots, for the convenience of handling and also for attracting better competition. It is not a healthy practice to form bigger lots of material accumulated over a longer period of time.

As per decision taken in EC 551<sup>st</sup> meeting held on 18<sup>th</sup> & 19<sup>th</sup> March 2021, it is clarified that disposal of material should be done by work centre as per identified lot size after taking approval from Competent Authority for each lot.

Above guidelines should be meticulously followed by all concerned.
