

Half Yearly Compliance Report**2026****01 Jun(01 Oct - 31 Mar)****Acknowledgement**

Proposal Name		ADDITIONAL EXPLORATION OF 50 WELLS IN GODAVARI ON-LAND PML BLOCK OF KG BASIN IN EAST AND WEST GODAVARI DISTRICTS OF ANDHRA PRADESH. EC ID NO:EC22B002AP162571 DATED 06.12.2022	
Name of Entity / Corporate Office		ONGC LTD	
Village(s)		N/A	
District		EAST GODAVARI	
Proposal No.	SIA/AP/IND2/193538/2021	Category	Industrial Projects - 2
Plot / Survey / Khasra No.	N/A	Sub-District	N/A
State	ANDHRA PRADESH	Entity's PAN	*****1598A
MoEF File No.	AP IND EG 7 2022 4472	Entity name as per PAN	OIL AND NATURAL GAS CORPORATION LIMITED

Compliance Reporting Details

Reporting Year	2026
Remarks (if any)	Four exploratory wells NDPAA, BLMAA, BKAB and TMAA drilled during the period from 1st October 2025 to 31st March 2026 Environment Monitoring reports of exploratory wells NDPAA, BLMAA, BKAB and TMAA attached.
Reporting Period	01 Jun(01 Oct - 31 Mar)

Details of Production and Project Area

Name of Entity / Corporate Office	ONGC LTD	
	Project Area as per EC Granted	Actual Project Area in Possession
Private	288925	288925
Revenue Land	0	0
Forest	0	0
Others	N/A	N/A
Total	288925	288925

Others Area

Sr. no				Other Name	Area Granted	Area Actual
1				0	0	0
Production Capacity						
Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	Oil and gas	BBL per day	N/A	0	0	0
Conditions						
Specific Conditions						
Sr.No.	Condition Type	Condition Details				
1	Statutory compliance	Part A: Special Conditions: The proposal shall not attract the following Acts and Rules: a. Forest Act 1980, b. Wild Life (Protection) Act, 1972; c. CRZ Notification, 2011; d. The Eco sensitive areas as notified under Environment (Protection) Act, 1986; e. Critically polluted areas as notified by CPCB and also shall not harm live stocks and human beings and disturb their activities.				
PPs Submission: Being Complied Exploratory well locations do not attract the following Acts and Rules: a. Forest Act 1980, b. Wild Life (Protection) Act, 1972; c. CRZ Notification, 2011; d. The Eco sensitive areas as notified under Environment (Protection) Act, 1986; e. Critically polluted areas as notified by CPCB.						Date: 21/05/2026
2	Statutory compliance	Part A: Special Conditions: The project proponent shall not use any Synthetic based oils mud/chemicals.				
PPs Submission: Being Complied Only water based mud will be used. Use of SOBM if any, is restricted to the portion of well where abnormal high temperature and pressure are expected and drill cutting so generated shall be routed to authorized vendors through APEMCL.						Date: 21/05/2026
3	Risk Mitigation and Disaster Management	Part A: Special Conditions: The project proponent shall implement disaster management system.				
PPs Submission: Being Complied ONGC Disaster Management Plan is in accordance with OISD, DGMS guidelines.						Date: 21/05/2026
4	Statutory compliance	Part A: Special Conditions: The project proponent shall take consent from land owners before going to start proposed project.				
PPs Submission: Being Complied Drilling commences only after obtaining consent from respective landowners.						Date: 21/05/2026
5	Statutory compliance	Part A: Special Conditions: Drilling shall be done with the consent of land owners only.				
PPs Submission: Being Complied Drilling commences only after obtaining consent from respective landowners.						Date: 21/05/2026
6	Statutory compliance	Part A: Special Conditions: The proponent shall have the liability to				

		pay compensation to the farmers and Property holders in case of damages due to operation of wells
PPs Submission: Being Complied Company pays compensation to the farmers and Property holders in case of damages due to operation of wells.		Date: 21/05/2026
7	WASTE MANAGEMENT	Part A: Special Conditions: The project proponent shall comply with the Bio-medical Waste Management Rules, 2016 and its amendments
PPs Submission: Complied Biomedical wastes not generated in this line of work		Date: 21/05/2026
8	AIR QUALITY MONITORING AND PRESERVATION	Adequate stack height shall be provided for D.G. Sets 3 x 1750-1430 KVA (1 x 1750- 1430 KVA standby) as per CPCB norms.
PPs Submission: Complied Adequate stack heights are provided for D.G. sets as per CPCB norms.		Date: 21/05/2026
9	MISCELLANEOUS	Felling of tree shall not be permitted unless PP takes applicable permission from State Forest Department / Concerned authority, if felling of tree is inevitable for drilling operations.
PPs Submission: Complied Felling of trees is avoided as far as possible. if felling of tree is inevitable for drilling operations, the permissions from State Forest Department / Concerned authority shall be obtained.		Date: 21/05/2026
10	AIR QUALITY MONITORING AND PRESERVATION	During exploration, production, storage and handling, the fugitive emissions of methane, if any, shall be monitored using infra-red camera / appropriate technology.
PPs Submission: Complied Exploratory drilling activity lasts only for 3 to 5 months. However, environment monitoring is carried out through NABL accredited Laboratories.		Date: 21/05/2026
11	Human Health Environment	The project proponent also to ensure trapping / storing of the CO2 generated, if any, during the process and handling.
PPs Submission: Complied No considerable CO2 is generated during exploratory well drilling.		Date: 21/05/2026
12	MISCELLANEOUS	Approach road shall be made pucca to minimize generation of suspended dusty.
PPs Submission: Complied Approach road shall be made pucca to minimize generation of suspended dust particles.		Date: 21/05/2026
13	AIR QUALITY MONITORING AND PRESERVATION	The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R, No.826(E)dated 16thNovember,2009 shall be complied with.
PPs Submission: Complied Ambient air quality is monitored through NABL accredited laboratory. Test reports of the wells drilled during this period are attached as Environment Monitoring Reports.		Date: 21/05/2026

14	AIR QUALITY MONITORING AND PRESERVATION	To control source and the fugitive emissions, suitable pollution control devices shall be installed to meet the prescribed norms and/or the NAAQS. The gaseous emissions shall be dispersed through stack of adequate height as per CPCB/SPCB guidelines
PPs Submission: Complied adequate stack heights as per CPCB/SPCB guidelines are provided for DG sets to control fugitive emissions		Date: 21/05/2026
15	AIR QUALITY MONITORING AND PRESERVATION	The locations of the ambient air quality monitoring stations shall be decided in consultation with the State pollution Control Board (SPCB) and it shall be ensured that at least one station each is installed in the upwind and downwind direction as well as where maximum ground level concentrations are anticipated
PPs Submission: Complied The locations of the ambient air quality monitoring stations, one station each is installed in the up and downwind direction as well as where maximum ground level concentrations are anticipated.		Date: 21/05/2026
16	AIR QUALITY MONITORING AND PRESERVATION	Ambient air quality shall be monitored at the nearest human settlements as per the National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R, No.826(E) dated 16th November, 2009 for PM10, PM2.5, SO2, NOX, CO, CH4, HC, Non-Methane HC etc.,
PPs Submission: Complied Ambient air quality of the nearest village are monitored.		Date: 21/05/2026
17	Noise Monitoring & Prevention	The company shall make all arrangements for control of noise from the drilling activity. Acoustic enclosure shall be provided for the DG sets along with the adequate stack height as per CPCB guidelines.
PPs Submission: Complied Acoustic enclosure are provided to the DG sets along with the adequate stack heights as per CPCB guidelines. People working in noise prone areas are provided with ear muffs.		Date: 21/05/2026
18	Noise Monitoring & Prevention	The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc., on all sources of noise generation.
PPs Submission: Complied The overall noise levels in and around the plant area are kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc., on all sources of noise generation		Date: 21/05/2026
19	Noise Monitoring & Prevention	The ambient noise levels shall conform to the standards prescribed under Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).
PPs Submission: Complied The ambient noise levels are under the set standards of Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time). Environment Monitoring Reports attached.		Date: 21/05/2026
20	WATER QUALITY MONITORING AND PRESERVATION	As per records the source of water is hired tankers. Total water requirement for each well is 50 KLD (Fresh water is 40 KLD and Recycled water is 10 KLD). 10.0 KLD is used for Domestic purpose.

PPs Submission: Complied Total water requirement is met by hired tankers only.		Date: 21/05/2026
21	WATER QUALITY MONITORING AND PRESERVATION	Waste water shall be treated by an effective onsite ETP coupled with RO so as to reduce fresh water foot print on daily basis. Size of the waste pit shall be kept minimum in such way so that it can only accommodate volume of discarded mud and volume of drill cuttings. Storm water shall not be allowed to reach waste water pit. Zero Liquid Discharge shall be ensured and no waste/treated water shall be discharged outside the premises.
PPs Submission: Complied Waste water is treated by Mobile ETP coupled with RO onsite. Adequate size of the waste pit is maintained so that it accommodates volume of discarded mud and volume of drill cuttings. Zero Liquid Discharge is followed and no waste/treated water is discharged outside the premises.		Date: 21/05/2026
22	WATER QUALITY MONITORING AND PRESERVATION	Total fresh water requirement shall not exceed 30 cum/day/well proposed to be met through tankers/ground water. Mobile ETP shall be installed coupled with RO to reuse the treated water in drilling system. Size of the waste shall not exceed from the whole volume of the well plus volume of drill cutting expected to be generated and volume of discarded mud if any. Two feet free board may be left to accommodate rain water. There shall be separate storm water channel and rain water shall not be allowed to mix with waste water. Alternatively, if possible pit less drilling be practiced instead of above.
PPs Submission: Complied Total fresh water requirement is met through tankers/ground water. Mobile ETP coupled with RO is used to treat water for reuse. Garland drains are constructed around the drill site to stop excess water from flowing outside the drill site.		Date: 21/05/2026
23	WASTE MANAGEMENT	Zero Liquid Discharge shall be ensured and no waste/treated water shall be discharged outside the premises.
PPs Submission: Complied Zero Liquid Discharge is ensured and no waste/treated water is discharged outside the premises.		Date: 21/05/2026
24	WASTE MANAGEMENT	The company shall construct the garland drain all around the drilling site to prevent runoff of any oil containing waste into the nearby water bodies. Separate drainage system shall be created for oil contaminated and non-oil contaminated. Effluent the shall be properly treated and treated waste water shall conform to CPCB standards.
PPs Submission: Complied Constructed garland drains all around the drilling sites. Effluents are properly treated and treated water is reused/recycled.		Date: 21/05/2026
25	WASTE MANAGEMENT	Drill cuttings Separated from drilling fluid shall be adequately washed and disposed in HDPE lined pit. Waste mud shall be tested for hazardous contaminants and disposed according to HWMH Rules, 2016. No effluent/drilling mud/drill cutting shall be discharged/disposed off into nearby surface water bodies. The company shall comply with the guidelines for disposal of solid waste, drill cutting and drilling fluids for onshore drilling operation notified vide GSR.546(E) dated 30th August,2005.

PPs Submission: Complied Drilling waste water and drill cuttings wash water is collected in HDPE lined waste pit and left for solar drying. Drill cuttings and hazardous waste routed to authorized vendors through APEMCL for pre-processing as utilizable waste. Compliance as per GSR 546(E) dated 30.08.2005 is attached.		Date: 21/05/2026
26	WATER QUALITY MONITORING AND PRESERVATION	The total waste water generation is 250 KLD. (5 KLD at each well site). The waste water shall be treated in ETP of capacity 50 KLD and after treatment shall be reused. No outside discharge.
PPs Submission: Complied Effluents are reused/recycled after treatment with METP. No waste water is discharged outside.		Date: 21/05/2026
27	WASTE MANAGEMENT	Hazardous waste generated during the Rigs operations such as organic residue, waste oils, used oils etc., shall be disposed as per the Hazardous and other Wastes (Management and Tran boundary movement) Rules, 2016 and its amendments thereof
PPs Submission: Complied Spent oil is sent to authorized recyclers. The disposal of hazardous waste is routed through APEMCL to authorized pre-processing facilities.		Date: 21/05/2026
28	WASTE MANAGEMENT	The proponent shall comply with solid waste management rules 2016.
PPs Submission: Complied Complied with solid waste management rules 2016		Date: 21/05/2026
29	WASTE MANAGEMENT	The proponent should strictly comply with the E-Waste Management Rules, 2016, and report compliance.
PPs Submission: Complied Complied		Date: 21/05/2026
30	WASTE MANAGEMENT	Oil spillage prevention and mitigation scheme shall be prepared. In case of Oil spillage/contamination, action plan shall be prepares to clean the site by adopting proven technology. The recyclable waste (oily sludge) and spent oil shall be disposed of the authorized recyclers
PPs Submission: Complied In case of Oil spillage/contamination, proven bio-remediation method will be adopted to cleanup the area. The recyclable waste (oily sludge) and spent oil shall be disposed of the authorized recyclers		Date: 21/05/2026
31	WASTE MANAGEMENT	Oil content in the drill cuttings shall be monitored by some Authorized agency and report shall be sent to the Ministrys Regional Office, Vijayawada.
PPs Submission: Complied Oil content in the drill cuttings is monitored by NABL accredited lab. Environment Monitoring Report for all wells drilling this period is attached at the end.		Date: 21/05/2026
32	MISCELLANEOUS	The Project Proponent shall ensure that the transportation activity of the unit should not cause any inconvenience to the public and comply with the local norms, if any;

PPs Submission: Complied Complied		Date: 21/05/2026
33	Risk Mitigation and Disaster Management	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management plan shall be implemented.
PPs Submission: Complied ERP is based on HIRA and DMP are in accordance with OISD and DGMS guidelines.		Date: 21/05/2026
34	Risk Mitigation and Disaster Management	Blow out preventer system shall be installed to prevent well blowouts during drilling operations. BOP measures during drilling shall focus on maintaining well bore hydrostatic pressure by proper pre-well planning and drilling fluid logging etc.,
PPs Submission: Complied Blow out preventer system are installed to prevent well blowouts during drilling operations.		Date: 21/05/2026
35	Human Health Environment	Company shall prepare operating manual in respect of all activities, which would cover all safety and environment related issues and measures to be taken for protection. One set of environmental manual shall be made available at the drilling site/ project site. Awareness shall be created at each level of the management. All the schedules and results of environmental, monitoring shall be available at the project site office. Remote monitoring of site should be done.
PPs Submission: Complied SOPs for drilling operations covering safety and environmental aspects are in place. Regular safety and environment awareness trainings provided to employees. QHSE management system procedures are in place with regular internal and external audits.		Date: 21/05/2026
36	Human Health Environment	On completion of drilling, the company has to plug the drilled wells Safely and obtain certificate from environment safely angle from the concerned authority.
PPs Submission: Complied Wells once declared dry, are abandoned with plugs as per OMR-2017 and the sites are restored back to near original condition before handing over to the owners.		Date: 21/05/2026
37	Human Health Environment	The company shall take measures after completion of drilling process by well plugging and secures enclosures, decommissioning of rig upon abandonment of the well and drilling site shall be restored the area in original condition. In the event that no economic quantity of hydrocarbon is found a full abandonment plan shall be implemented from the drilling site in accordance with the applicable Indian Petroleum Regulations
PPs Submission: Complied Wells once declared dry, are abandoned with plugs as per OMR-2017 and the sites are restored back to near original condition before handing over to the owners		Date: 21/05/2026
38	Human Health Environment	The company shall take necessary measures to prevent fire hazards, containing oil spill and soil remediation as needed. Possibility of using ground flare shall be explored. At the place of place of ground flaring, the overhead flaring stack with knockout drums shall be installed to minimize gaseous emissions during operation.

PPs Submission: Complied First-aid, firefighting equipment provided as per OISD-189, flare stack is used for flaring during testing through test separator for a brief period of 1-2 days.		Date: 21/05/2026
39	MISCELLANEOUS	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis,. Training to all employees on handling of chemicals shall be imparted.
PPs Submission: Complied Training is imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees is done on regular basis.		Date: 21/05/2026
40	Human Health Environment	The company shall develop a contingency plan for H2S release including all necessary aspects from evacuation to resumption of normal operations. The workers shall be provided with personal H2S detectors in locations of high risk of exposure along with self containing breathing apparatus.
PPs Submission: Complied ERP for H2S release is in place. Portable H2S detectors are made available at drill sites. However, it is highly unlikely to encounter during drilling operations in oil fields of KG Basin.		Date: 21/05/2026
41	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooling, mobile toilets, mbile STP, safe drinking water, medical health care, creche etc. the housing may be in the form of temporary structures to be removed after the completion of the project.
PPs Submission: Complied All temporary infrastructure constructed within the site needed during drilling operation are removed after the completion of drilling.		Date: 21/05/2026
42	Human Health Environment	Occupational health surveillance of the workers shall be done on a regular basis and records mainlined as per the Factories Act.
PPs Submission: Complied Periodic medical examination is done in authorized hospitals as per company policy and DGMS guidelines.		Date: 21/05/2026
43	Human Health Environment	The company shall carry out long term subsidence study collecting base line data before initiating drilling operation till the project lasts. The data so collected shall be submitted six monthly to the SEIAA and Regional Office, Vijayawada.
PPs Submission: Complied Land subsidence studies are being taken up by Delta Studies, Andhra University. First interim report on subsidence is attached.		Date: 21/05/2026
44	MISCELLANEOUS	The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and SEIAA, A.P.

PPs Submission: Complied Advertised in local daily Deccan Chronicle and Eenadu dated 11.12.2022		Date: 21/05/2026
45	MISCELLANEOUS	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies. Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
PPs Submission: Complied Submitted to the heads of local bodies.		Date: 21/05/2026
46	Statutory compliance	The project proponent shall upload the status of compliance of the stipulated environmental clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
PPs Submission: Complied Six monthly reports on the status of compliance of the stipulated environmental clearance conditions, including results of monitored data are update in company's website, ongcindia.com on half-yearly basis.		Date: 21/05/2026
47	Statutory compliance	The project proponent shall submit Half-yearly reports on the status of compliance of the stipulated Environmental Clearance Conditions including results of monitored data (both in hard copies as well as by e-mail) to the Ministry of Environment and Forests, its Regional Office, Vijayawada, SEIAA, A.P., Zonal Office of Central Pollution Control Board, Bangalore, and A.P. Pollution Control Board.
PPs Submission: Complied Submitted Half-yearly reports on the status of compliance of the stipulated Environmental Clearance Conditions including results of monitored data (by e-mail) to the Ministry of Environment and Forests, its Regional Office, Vijayawada and respective Zonal Office A.P. Pollution Control Board.		Date: 21/05/2026
48	Statutory compliance	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
PPs Submission: Complied Exploratory drilling activity is of temporary and short duration(3-5 months) at particular site. Environmental statement for each financial year in Form-V is being submitted to APPCB.		Date: 21/05/2026
49	MISCELLANEOUS	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
PPs Submission: Complied All the project details are provided to the statutory authorities.		Date: 21/05/2026
50	MISCELLANEOUS	Restoration of the project site shall be carried out satisfactorily and report shall be sent to the Ministrys Regional Office, Vijayawada.
PPs Submission: Complied Restoration of the project site shall be carried out as per ONGC SOP issued by Corporate HSE ,New		Date: 21/05/2026

Delhi and report shall be sent to the Ministry's Regional Office, Vijayawada, if any. No site restoration was carried out during this period.		
51	Statutory compliance	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
52	MISCELLANEOUS	The project proponent shall abide by all the commitments and recommendations made in the EIA / EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
PPs Submission: Complied Complied.		Date: 21/05/2026
53	MISCELLANEOUS	No further expansion of modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate change/ SEIAA, as applicable.
PPs Submission: Complied Complied.		Date: 21/05/2026
54	MISCELLANEOUS	The Regional Office of Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information / monitoring reports.
PPs Submission: Complied ONGC will furnish the data, information and monitoring report as and when requested.		Date: 21/05/2026
55	MISCELLANEOUS	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local
PPs Submission: Complied Advertised in local daily Deccan Chronicle and Eenadu dated 11.12.2022.		Date: 21/05/2026

General Conditions

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	This order is valid for 7 years.
PPs Submission: Complied As per F.No.1A3-22/28/2022-1A.111 E 181584 dated 13.12.2022, the validity of the ECs of projects other than River Valley, Nuclear and Mining projects is increased to 10 years.		Date: 21/05/2026
2	Statutory compliance	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986. In case of the diversion of forest land for non forest purpose involved in the project.
PPs Submission: Complied Project does not fall in any forest area.		Date: 21/05/2026
3	Statutory compliance	The project proponent shall obtain and adhere to statutory clearance under the Coastal Regulation Zone Notification, 2019, as applicable.

PPs Submission: Complied Project does not fall in CRZ area		Date: 21/05/2026
4	MISCELLANEOUS	The project proponent shall submit the copies of the Environmental Clearance to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
PPs Submission: Complied Submitted to the heads of local bodies. Published in 2 local newspapers viz Deccan Chronicle and Eenadu dailies.		Date: 21/05/2026
5	Statutory compliance	The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and SEIAA, A.P.
PPs Submission: Complied Published in Deccan Chronicle and Eenadu newspapers on 11.12.2022, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and SEIAA, A.P.		Date: 21/05/2026
6	MISCELLANEOUS	The Prior Environmental Clearance issued to this project along with the Approved Environmental Management Plan (EMP) and the Approved DPR should be uploaded in the projects web site and be made available in the public domain
PPs Submission: Complied A copy of EC is available in ongcindia.com website		Date: 21/05/2026
7	MISCELLANEOUS	The PEC main contents be displayed on permanent boards at the main entry of the premises and at other prominent places
PPs Submission: Complied EC main contents are displayed on permanent boards at the main entry of the premises.		Date: 21/05/2026
8	MISCELLANEOUS	The project proponent shall strictly adhere to its Environmental Policy approved by the SEIAA, and shall be made available in their web site.
PPs Submission: Complied Corporate Environment policy is available on ongcindia.com		Date: 21/05/2026
9	MISCELLANEOUS	A Separate Bank account need to be started for the budget allocated for the EMP and the amount committed should be deposited before the project obtains CFE/CFO as the case may be. The amounts allocated should not be diverted for any other purpose.
PPs Submission: Complied ONGC allocated budget for EMP during financial planning		Date: 21/05/2026
10	Statutory compliance	The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the SEIAA and its Regional Office located at Vijayawada.

PPs Submission: Complied Ongc reserves sufficient funds towards environmental protection measures. Funds so earmarked will not be diverted.		Date: 21/05/2026
11	Statutory compliance	The proponent before starting the operations shall obtain all other mandatory clearances from respective departments, including the CFE and CFO from the APPCB.
PPs Submission: Complied Complied.		Date: 21/05/2026
12	Statutory compliance	The project proponent shall meticulously follow the Form-1/2 of the application; and approved EMP, for the purpose of all compliances.
PPs Submission: Complied Complied.		Date: 21/05/2026
13	AIR QUALITY MONITORING AND PRESERVATION	Four ambient air quality-monitoring stations should be established in the core zone as well as in the buffer zone. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.
PPs Submission: Complied Ambient air quality is monitored by NABL accredited lab at designated places in the drill site.		Date: 21/05/2026
14	AIR QUALITY MONITORING AND PRESERVATION	Data on ambient air quality should be regularly submitted to the Regional Office located at Vijayawada and the State Pollution Control Board/ Central Pollution Control Board once in six months.
PPs Submission: Complied complied		Date: 21/05/2026
15	Human Health Environment	Personnel working in the industry should be provided with protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
PPs Submission: Complied Personnel are provided with protective respiratory devices and given adequate training and information on safety and health aspects.		Date: 21/05/2026
16	Human Health Environment	Occupational health check up program for the workers should be undertaken periodically. A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
PPs Submission: Complied Occupational health check up program for the workers are carried out periodically. A separate environmental management cell is in place.		Date: 21/05/2026
17	Statutory compliance	The project proponent shall submit Half-yearly reports on the status of compliance of the stipulated Environmental Clearance Conditions including results of monitored data (both in hard copies as well as by e-mail) to the Ministry of Environment and Forests, its Regional

		Office, Vijayawada, SEIAA, A.P., Zonal Office of Central Pollution Control Board, Bangalore, and A.P. Pollution Control Board.
PPs Submission: Complied Complied. soft copies e-mailed to respective offices.		Date: 21/05/2026
18	Statutory compliance	The proponent shall upload the status of compliance of the environmental clearance conditions including results of monitored data on their websites and shall update the same periodically.
PPs Submission: Complied Complied. Updated in ongcindia.com website.		Date: 21/05/2026
19	MISCELLANEOUS	Officials from the Regional Office of MoEF and CC, Vijayawada / The SEIAA, Andhra Pradesh through the Regional Offices of Andhra Pradesh Pollution Control Board, who would be monitoring the implementation of environmental safeguards, should be given full co-operation, facilities and documents/data by the project proponents during their inspection. A complete set of all the documents shall be submitted to the CCF, Regional Office to MoEF and CC, Vijayawada.
PPs Submission: Agreed to Comply complied.		Date: 21/05/2026
20	MISCELLANEOUS	SEIAA reserves the right to cancel the EC issued at any time, if EC has been obtained by the proponent through suppression of any information or furnishing false information upon which the project is appraised.
PPs Submission: Agreed to Comply Noted.		Date: 21/05/2026
21	MISCELLANEOUS	Concealing the factual data in the compliance reports, or failure to comply with any conditions mentioned above may result in withdrawal of the EC and attract action under the provisions of Environment (Protection) Act, 1986.
PPs Submission: Agreed to Comply Noted.		Date: 21/05/2026
