

Your (**Half Yearly Compliance Report**) has been **Submitted** with following details

Proposal No	SIA/WB/IND2/277881/2022
Compliance ID	835933578
Compliance Number(For Tracking)	EC/M/COMPLIANCE/835933578/2026
Reporting Year	2026
Reporting Period	01 Jun(01 Oct - 31 Mar)
Submission Date	17-06-2026
RO/SRO Name	Shri Senthil Kumar Sampath
RO/SRO Email	agmu156@ifs.nic.in
State	WEST BENGAL
RO/SRO Office Address	Integrated Regional Offices, Kolkata

Note:- SMS and E-Mail has been sent to Shri Senthil Kumar Sampath, WEST BENGAL with Notification to Project Proponent.

Oil & Natural Gas Corporation Limited
Health, Safety & Environment, MBA Basin
4th Floor, A-Wing, "Technopolis" Building,
Salt Lake Sector-5, Kolkata, 700091
Fax: 033-23670121

Office of the I/C HSE, Kolkata

File: HSE/EC compliance/October'25-March'26/ 2025-26

Dated: 16.06.2026

To,
The Regional Officer/ Inspector General of Forests
Integrated Regional Office
Ministry of Environment, Forest and Climate Change
Salt Lake City, Kolkata-700106.

Sub: Submission of six-monthly EC compliance reports for the period October'25-March'26

Reference: 1. EC letter nos. EC23A002WB139313, dated 13.04.2023 (15 Development Wells: Category-A- Active Block)
2. EC letter nos. EC22B002WB170058, dated 26.09.2022 (10 Exploratory Wells: Category-B2- Active Block)
3. EC letter nos. EC22B002WB155201, dated 26.09.2022 (07 Exploratory Wells: Category-B2- Active Block)
4. EC letter nos. TO24C0302WB5254070A, dated 12.07.2024 (08 Exploratory Wells: Category-B2- Active Block)
5. EC letter nos. EC24C0302WB5154647N, dated-12.07.2024. (4 Exploratory wells: Category-B2- Active Block)
6. EC for Offshore: Not required beyond 12 nautical miles (India's jurisdiction)

Respected Sir,

As per stipulated conditions under the above-mentioned Environmental Clearance letters, the compliance reports of active blocks are hereby submitted against each condition.

Drilling activities in the referred blocks of MBA Basin during the period from 01.10.2025 to 31.03.2026 are as follows:

S. N.	EC letter No.	Name of Block	Activity	Onshore /Offshore
1.	EC23A002WB139313, dated- 13.04.2023 (15 Development Wells)	WB-ONN-2005/4 (NELP-VII) (A-Category)	No Drilling Activity has been carried out in this block during the period October'25-March'26.	Onshore
2.	EC No. EC22B002WB170058, dated-26.09.2022 for 10 Exploratory Wells	WB-ONN-2005/4 (B-2 Category)	Well # KP-AP-D (EC-7): The well KP-AP-D was spudded on 10.06.2025 and drilled up to a target depth of 2712 m with Onshore Rig E-2000-IX. Production testing was carried out, and the well was declared non-commercial and abandoned without measurable influx. Rig was released on 06.10.2025 Well # Garibpur-1 (EC-1): The well Garibpur-1 was spudded on 08.10.2025 and drilled up to a target depth of 3750 m with Onshore Rig BI-2000-1. Logging is in progress.	Onshore
3.	EC No- EC22B002WB155201, dated- 26.09.2022 for 7 Exploratory Wells	BP-ONHP-2018/1 (OALP- III) (B-2 Category)	Well # Begampur (EC 4): The well Begampur was spudded on 23.11.2025 and drilled up to a target depth of 3885 m. Production testing was carried out, and the well was found dry and abandoned. Rig was released on 22.04.2026	Onshore
4.	TO24C0302WB5254070A dated 12.07.2024. EC for 08 Exploratory Wells	BP-ONHP-2019/1 (OALP- IV) (B-2 category)	No Drilling Activity was carried out in this block during the period October'25-March'26. Presently, the block validity has expired.	Onshore
5.	EC24C0302WB5154647N, dated 12.07.2024. EC for 4 Exploratory Wells	BP-ONHP-2019/2 (OALP- V) (B-2 category)	No Drilling Activity was carried out in this block during the period October'25-March'26. Presently, the block validity has expired.	Onshore

Regards

(Darshan Singh)
GM (M) – I/C HSE,
ONGC, MBA Basin, Kolkata

Half Yearly Compliance Report**2026****01 Jun(01 Oct - 31 Mar)****Acknowledgement**

Proposal Name	Exploratory drilling of 7 Wells in Bengal On shore OALP-III, Block BP-ONHP-2018/1 situated in North 24 Paraganas and South 24 Paraganas by M/S. ONGC Limited, MBA Basin.		
Name of Entity / Corporate Office	ONGC, MBA Basin		
Village(s)	Abad Chandpur		
District	24 PARAGANAS NORTH		
Proposal No.	SIA/WB/IND2/277881/2022	Category	Industrial Projects - 2
Plot / Survey / Khasra No.		Sub-District	Magrahat - II
State	WEST BENGAL	Entity's PAN	*****0797B
MoEF File No.	EN/T-II-1/042/2022	Entity name as per PAN	Champak Mitra

Compliance Reporting Details

Reporting Year	2026
Remarks (if any)	Block BP-ONHP-2018/1 situated in North 24 Paraganas and South 24 Paraganas by M/S. ONGC Limited, MBA Basin for Exploratory drilling of 7 Wells
Reporting Period	01 Jun(01 Oct - 31 Mar)

Details of Production and Project Area

Name of Entity / Corporate Office ONGC, MBA Basin

	Project Area as per EC Granted	Actual Project Area in Possession
Private	246800	246800
Revenue Land	0	0
Forest	0	0
Others	N/A	N/A
Total	246800	246800

Others Area

Sr. no	Other Name	Area Granted	Area Actual
--------	------------	--------------	-------------

Production Capacity						
Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	Production of Crude Oil and Natural Gas	Million Tons per Annum (MTPA)	30/04/2030	KOLKATA	Nil	WBPCB, Kolkata
2	Production of Crude Oil and Natural Gas	Million Tons per Annum (MTPA)	31/10/2030	SEIAA, WB	Nil	WBPCB, Kolkata

Conditions		
Specific Conditions		
Sr.No.	Condition Type	Condition Details
1	MISCELLANEOUS	No drilling shall be carried out in Protected Areas/forest area.
PPs Submission: Agreed to Comply Prior Forest clearance to be taken wherever applicable.		Date: 17/06/2026
2	MISCELLANEOUS	Approach road shall be made pucca to minimize generation of suspended dust.
PPs Submission: Being Complied All the approach roads have been made pucca to minimize generation of suspended dust.		Date: 17/06/2026
3	MISCELLANEOUS	Total water requirement shall not exceed 22 KLD/well proposed to be met through tankers. Mobile ETP shall be installed coupled with RO to reuse the treated water in drilling system. Size of the waste shall not exceed from the whole volume of the well volume of drill cutting expected to be generated and volume of discarded mud if any. Two feet free board may be left to accommodate rain water. There shall be separate storm water channel and rain water shall not be allowed to mix with waste water. Alternatively, if possible, pit less drilling be practiced instead of above. T
PPs Submission: Complied Total freshwater water consumption is within the permitted limit. Water supply met through tankers. However, Groundwater abstraction for exploratory drilling activities are exempted from obtaining NOC from Central Ground Water Authority (CGWA). Mobile ETP coupled with RO is installed to treat effluent generated from drilling location. Storm water is not allowed to mix with wastewater.		Date: 17/06/2026
4	WASTE MANAGEMENT	No lead acid batteries shall be utilized in the project/site.
PPs Submission: Complied No lead acid batteries are used at site. Only Alkaline cells are used.		Date: 17/06/2026
General Conditions		

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, if drilling is carried in Forest areas.
PPs Submission: Agreed to Comply Noted, Agreed with		Date: 17/06/2026
2	MISCELLANEOUS	The project proponent shall obtain Consent to Establish I Operate under the provisions of Air (Prevention and Control of Pollution) Act, 1981 and the Water (Prevention and Control of Pollution) Act, 1974 from the State pollution Control Board
PPs Submission: Complied NOC for Consent to Establish for well Begampur (EC-4) already obtained vide Memo No: 888-2N-41/2022(E), dated-24.07.2025. CTO for well Begampur (EC-4) already obtained vide CTO certificate no. CTO No. WBPCB/7623631/2025 dated 06.11.2025.		Date: 17/06/2026
3	WASTE MANAGEMENT	Necessary authorization required under the Hazardous and Other Wastes (Management and Trans- Boundary Movement) Rules, 2016, Solid Waste Management Rules, 2016 shall be obtained and the provisions contained in the Rules shall be strictly adhered to.
PPs Submission: Being Complied ONGC prepares Waste Management Plan as per guideline and follows strictly. ONGC disposes solid, water, drill cutting and drilling fluids as per notified guideline (GSR.546(E) dated 30th August,2005). ONGC did not use any Hazardous Chemicals for drilling. Water Based Mud was used of non-hazardous nature. Used Lube oil from DG set, was collected and transported to store which was subsequently disposed of through authorized recyclers (i.e. M/S. MSTC)		Date: 17/06/2026
4	Marine/Coastal	The project proponent shall obtain and adhere to statutory clearance under the Coastal Regulation Zone Notification, 2011, if applicable.
PPs Submission: Agreed to Comply ONGC prepares Waste Management Plan as per guideline and follows strictly. ONGC disposes solid, water, drill cutting and drilling fluids as per notified guideline (GSR.546(E) dated 30th August,2005). ONGC did not use any Hazardous Chemicals for drilling. Water Based Mud was used of non-hazardous nature. Used Lube oil from DG set, was collected and transported to store which was subsequently disposed of through authorized recyclers (i.e. M/S. MSTC)		Date: 17/06/2026
5	AIR QUALITY MONITORING AND PRESERVATION	The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R No.826 (E) dated 16th November, 2009 shall be complied with.
PPs Submission: Complied Ambient Air Quality Monitoring has been conducted during exploratory drilling at a quarterly frequency during peak-drilling period done by WBPCB authorized lab as per guideline/ standard Engine Emission testing also carried out. All the results indicated that all the parameters were within permissible limit. Lab test report of location well Begampur is enclosed.		Date: 17/06/2026
6	AIR QUALITY MONITORING AND PRESERVATION	The locations of ambient air quality monitoring stations shall be decided in consultation with the State Pollution Control Board (SPCB) and it shall be ensured that at least one stations each is installed in the upwind and downwind direction as well as where maximum ground level concentrations are anticipated
PPs Submission: Complied Ambient Air Quality Monitoring has been conducted during exploratory drilling at a quarterly		Date: 17/06/2026

frequency during peak-drilling period done by WBPCB authorized lab as per guideline/ standard Engine Emission testing also carried out. All the results indicated that all the parameters were within permissible limit. Lab test report of location well Begampur is enclosed		
7	AIR QUALITY MONITORING AND PRESERVATION	Ambient air quality shall be monitored at the nearest human settlements as per the National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16111 November, 2009 for PM-10, PM-2.5, SO ₂ , NO _x , CO, CH ₄ , HC, Non methane HC etc.
PPs Submission: Complied Ambient Air Quality Monitoring has been conducted during exploratory drilling site closest near the habitant area at a quarterly frequency during peak-drilling period done by WBPCB authorized lab as per guideline/standard and the results indicated that all the parameters were within permissible limit. Lab test report of location well Begampur is enclosed.		Date: 17/06/2026
8	AIR QUALITY MONITORING AND PRESERVATION	During exploration, production, storage and handling, the fugitive emission of methane, if any, shall be monitored
PPs Submission: Complied Portable multi-gas detector and Explosimeter are used to detect fugitive emissions of Methane (if any). Also fixed gas detector installation in zone-0 is in progress.		Date: 17/06/2026
9	AIR QUALITY MONITORING AND PRESERVATION	The project proponent also to ensure trapping/storing of the CO ₂ generated, if any, during the process and handling.
PPs Submission: Agreed to Comply Insignificant amount of CO ₂ is generated from engine exhaust.		Date: 17/06/2026
10	AIR QUALITY MONITORING AND PRESERVATION	Approach road shall be made pucca to minimize generation of suspended dust.
PPs Submission: Being Complied All the approach roads have been made pucca to minimize generation of suspended dust.		Date: 17/06/2026
11	WATER QUALITY MONITORING AND PRESERVATION	As proposed by the project proponent, Zero Liquid Discharge shall be ensured and no waste/treated water shall be discharged to any surface water body, sea and/or on land. Domestic sewage shall be disposed of through septic tank/soak pit.
PPs Submission: Complied Garland drains all around the sites, were constructed, as standard practice of ONGC, prior to exploratory drilling activities to prevent runoff of any oil containing waste into the nearby water bodies. Mobile ETP was used for waste water treatment. Effluent was properly treated by Mobile ETP, and the treated wastewater was confirmed to CPCB standards and after treatment reused it. Water based drilling fluid, used for exploratory drilling, is non- hazardous and re-used it after treatment. Good sanitation facility was provided at the drilling site during exploratory drilling works. Domestic sewage was disposed through septic tank/soak pit.		Date: 17/06/2026
12	WATER QUALITY MONITORING AND PRESERVATION	The effluent discharge shall conform to the standards prescribed under the Environment (Protection) Rules, 1986", or as specified by the State Pollution Control Board Consent under the Air/Water Act, - whichever is more stringent.

PPs Submission: Complied Tested the effluent discharge as per specified guideline/ the standard of Environment (Protection) Rules, 1986 by WBPCB approved lab. The test results are within permissible limit.		Date: 17/06/2026
13	MISCELLANEOUS	The State Environment Impact Assessment Authority I State Pollution Control Board shall monitor compliance of the stipulated conditions,
PPs Submission: Agreed to Comply Agreed with.		Date: 17/06/2026
14	WATER QUALITY MONITORING AND PRESERVATION	The project proponent shall construct the garland-drain all around the drilling site to prevent runoff of any oil containing waste into the nearby water bodies. Separate drainage system shall be created for oil contaminated and non-oil contaminated. Effluent shall be properly treated and treated wastewater shall conform to CPCB standards
PPs Submission: Complied Garland drains were constructed around the drilling locations. Separate drainage systems were created for oil-contaminated and non-oil-contaminated wastewater. Mobile ETPs were installed and treated wastewater conformed to CPCB standards.		Date: 17/06/2026
15	WATER QUALITY MONITORING AND PRESERVATION	Drill cuttings separated from drilling fluid shall be adequately washed and disposed in HDPE lined pit. Waste mud shall be tested for hazardous contaminants and disposed according to HWMH Rules, 2016. No effluent/drilling mud/drill cutting shall be discharged/disposed off into nearby surface water bodies. The project proponent shall comply with the guidelines for disposal of solid waste, drill cutting and drilling fluids for onshore drilling operation notified vide GSR 546(E) dated 301" August, 2005
PPs Submission: Complied Drill cuttings separated from drilling fluid are adequately washed and disposed in HDPE lined pit. No effluent/ drilling mud is discharged/disposed of into nearby surface water bodies. The guidelines for disposal of solid waste, drill cutting and drilling fluids for onshore drilling operation are being followed. Test report of waste drilling mud is enclosed.		Date: 17/06/2026
16	Noise Monitoring & Prevention	Acoustic enclosure shall be provided to DG set for controlling the noise pollution.
PPs Submission: Complied All DG sets are housed well inside acoustic enclosure to control noise during drilling activities. Mentioned in Lab test reports. Lab test report enclosed		Date: 17/06/2026
17	Noise Monitoring & Prevention	The overall noise levels in and around the drilling location areas shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation.
PPs Submission: Complied All DG sets are housed well inside acoustic enclosure, and all the stack height were 8.736 m as per CPCB guideline. Regular noise monitoring has been carried out by authorized agency and results found within permissible limit.		Date: 17/06/2026
18	Noise Monitoring & Prevention	The ambient noise levels should conform to the standards prescribed under E (P) A Rules, 1986 viz. 75 dB (A) during day time and 70 dB (A) during night time.

PPs Submission: Complied Regular noise monitoring was carried out by ONGC as well as by WBPCB authorized agency. Ambient noise levels were within specified value (75 dB (A) during day time and 70 dB (A) during night time). Lab test report enclosed.		Date: 17/06/2026
19	ENERGY PRESERVATION MEASURES	The energy sources for lighting purposes shall preferably be LED based.
PPs Submission: Complied Only LED lights are used at rig for lighting purposes.		Date: 17/06/2026
20	WASTE MANAGEMENT	Oil spillage prevention and mitigation scheme shall be prepared. In case of oil spillage/ contamination, action plan shall be prepared to clean the site by adopting proven technology. The recyclable waste (oily sludge) and spent oil shall be disposed of to the authorized recyclers
PPs Submission: Complied ONGC has Oil spillage prevention and mitigation plan but well drilled Begampur is an Exploratory well and not development. No oil produced during drilling and hence the point of oil spillage is irrelevant. Used Lube oil from DG set was collected and transported to store which was subsequently disposed through authorized recyclers (i.e., M/s. MSTC).		Date: 17/06/2026
21	WASTE MANAGEMENT	Oil content in the drill cuttings shall be monitored by Authorized agency and report shall be sent to the State Environment Impact Assessment Authority
PPs Submission: Complied Oil content in drill cutting at target zone is being tested by Authorized agency WBPCB Authorised Lab) as per guideline/standard. All results are within permissible limits. Lab test report enclosed.		Date: 17/06/2026
22	Human Health Environment	Emergency preparedness plan based on the Hazard identification and Risk Assessment HIRA) and Disaster Management Plan shall be implemented
PPs Submission: Complied ONGC has site specific Emergency plan and contingency plan and Disaster Management Plan (DMP) based on relevant and realistic emergency scenarios.		Date: 17/06/2026
23	Risk Mitigation and Disaster Management	Blow Out Preventer system shall be installed to prevent well blowouts during drilling operations. BOP measures during drilling shall focus on maintaining well bore hydrostatic pressure by proper pre-well planning and drilling fluid logging etc.
PPs Submission: Complied BOP was installed to control kicks and to prevent Well Blow Out as per OISD standards during drilling operations. Pre-well plan (GTO) was prepared and drilled as per GTO.		Date: 17/06/2026
24	Human Health Environment	The project proponent shall prepare operating manual in respect of all activities, which would cover all safety and environment related issues and measures to be taken for protection. One set of environmental manual shall be made available at the drilling site/ project site. Awareness shall be created at each level of the management. All the schedules and results of environmental monitoring shall be available at the project site office. Remote monitoring of site should be done.
PPs Submission: Complied		Date:

Copy of the Environment Management Plan (EMP) was maintained at the site. SOPs/Operational Manuals and Safe Work Practices were made available at the rigs during exploratory drilling activities. Data related to environmental monitoring was also maintained at the drilling site, and soft copies are available on the MBA Basin intranet, which is accessible to all employees. Operations and safety are continuously monitored from the base office.		17/06/2026
25	Human Health Environment	On completion of drilling, the project proponent should plug the drilled wells safely and obtain certificate from environment safety angle from the concerned authority
PPs Submission: Complied As per norms the wells will be plugged after drilling activities. ONGC plugs and abandons the dry wells and restores the site as per regulations. Intimation of well closing is sent to DGMS.		Date: 17/06/2026
26	Human Health Environment	The project proponent shall take measures after completion of drilling process by well plugging and secured enclosures, decommissioning of rig upon abandonment of the well and drilling site shall be restored the area.in original condition. ill the event that no economic quantity of hydrocarbon is found a full abandonment plan shall be implemented for the drilling site in accordance with-the applicable .Indian Petroleum Regulations
PPs Submission: Agreed to Comply If declared abandoned, dry wells will be plugged and Restoration will be done as per prevailing abandonment and restoration plan of ONGC in accordance with the applicable regulations. Report will be sent to State Environment Impact Assessment Authority after completion of work.		Date: 17/06/2026
27	Human Health Environment	The project proponent shall take necessary measures to prevent fire hazards, containing oil spill and soil remediation as needed. Possibility of using ground flare shall be explored. At the place of ground flaring, the overhead flaring stack with knockout drums shall be installed to minimize gaseous emissions during operation
PPs Submission: Complied Oil spill CRP not required and not relevant for this EC as ONGC will drill Exploratory wells. However, ONGC has Fire response plan and oil spillage CRP and also Fixed firefighting system, and other types of fire extinguishers are in place in all Drilling rig locations to prevent any kind of fire hazard.		Date: 17/06/2026
28	Human Health Environment	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted
PPs Submission: Being Complied All persons including contractors are well trained and fully aware of the hazards, risks and controls in place. MVT (Mines Vocational Training) had been imparted to ONGC employees and contractors working at ONGC site, as per ONGC policy and DGMS guidelines for training of the personnel working at site. Copy of the same is sent to DGMS for keeping record. Updated training matrix is available at the drilling site as well as in the office. Accordingly, all mandatory trainings are being imparted as per the prescribed frequency.		Date: 17/06/2026
29	Human Health Environment	The project proponent shall develop a contingency plan for H2S release including all necessary aspects from evacuation to resumption of normal operations. The workers shall be provided with personal H2S detectors in locations of high risk of exposure along with self-containing breathing apparatus

PPs Submission: Complied As per survey Hydrogen Sulphide was not found. Also, in drilling stages it was not found. However, Hydrogen Sulphide sensor was installed at appropriate location for detection of Hydrogen Sulphide. Also, SCBA (Self-Contained Breathing Apparatus) sets were available at the site. Sensitization programs on the use of SCBA and mock drills for Hydrogen Sulphide leak scenarios will be conducted in case of any emergency situation.		Date: 17/06/2026
30	Human Health Environment	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project
PPs Submission: Complied During construction and operational phases of the project skilled, semi-skilled and unskilled labourers are involved hence existing employment scenario of the region is improved. ONGC makes temporary structure within the site for the labour and securities with all type of facilities such as good sanitation facility, provision for fuel/electricity for cooking, packaged drinking water and medical health care facilities. The structures are made on temporary basis and removed after completion of the project during restoration.		Date: 17/06/2026
31	Human Health Environment	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.
PPs Submission: Complied During construction and operational phases of the project skilled, semi-skilled and unskilled labourers are involved hence existing employment scenario of the region is improved. ONGC makes temporary structure within the site for the labour and securities with all type of facilities such as good sanitation facility, provision for fuel/electricity for cooking, packaged drinking water and medical health care facilities. The structures are made on temporary basis and removed after completion of the project during restoration.		Date: 17/06/2026
32	MISCELLANEOUS	The project authorities should extend full cooperation to the officer(s) of the State Environment Impact Assessment Authority of State Pollution Control Board by furnishing the requisite data and information/monitoring reports
PPs Submission: Agreed to Comply Agreed with ONGC will cooperate to the State Environment Impact Assessment Authority of WBPCB and will comply if any observation is raised.		Date: 17/06/2026
33	Human Health Environment	The project proponent shall carry out long term subsidence study by collecting base line data before initiating drilling operation till the project lasts. The data so collected shall be submitted six monthly to the Ministry of Environment, Forests and Climate Change I State Environment Impact Assessment Authority I State Pollution Control Board.
PPs Submission: Complied Long term subsidence study of the nearby areas was conducted during generation of EMP and Environment quality Information (Baseline data monitoring) by NABET accredited consultant/organization before project started and submitted to SEIAA, WBPCB during EC clearance.		Date: 17/06/2026
34	MISCELLANEOUS	The project proponent should submit the proposed EMP on a six monthly basis. The Office Memorandum issued by the MoEF, CC vide F. No. 22-65/2017-IA.III dated 30.09.2020 should be strictly followed

PPs Submission: Being Complied Comprehensive Environmental Management Plan (EMP) of the Block was generated and submitted at the time of Environmental clearance.		Date: 17/06/2026
35	MISCELLANEOUS	Need based activities for local people is part of the EMP.
PPs Submission: Being Complied ONGC is undertaking various environment-related developmental activities under CSR and CER initiatives in the surrounding villages.		Date: 17/06/2026
36	Corporate Environmental Responsibility	The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental I forest /wildlife norms/ conditions. The company shall have defined system of reporting infringements I deviation I violation of the environmental I forest I wildlife norms I conditions and I or shareholders I stake holders. The copy of the board resolution in this regard shall be submitted to the Ministry of Environment, Forests and Climate Change I State Environment Impact Assessment Authority I State Pollution Control Board as a part of six monthly report.
PPs Submission: Complied ONGC has approved environmental policy and SOP. ONGC conducts audits both internal as well as through external agency to check for any violation of environmental issues/norms. Such deviation/s, if any, are reported and mitigated. ONGC Environment Policy enclosed.		Date: 17/06/2026
37	Corporate Environmental Responsibility	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of Senior Executive, who will directly report to the head of the organization.
PPs Submission: Complied A well-established Environmental Cell (CHSE) is situated at ONGC head quarter with qualified persons and apart from that ONGC MBA Basin has separate Environment cell, sub cell of HSE dept. comprising of qualified persons. Environment cell is now headed by I/C HSE.		Date: 17/06/2026
38	Corporate Environmental Responsibility	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose
PPs Submission: Complied ONGC has approved EMP with responsibility matrix and strict adherence to EMP and Environmental conditions. Sufficient amount allotted and spent every year for environmental protection measures.		Date: 17/06/2026
39	Corporate Environmental Responsibility	Year wise progress of implementation of action plan shall be reported to the Ministry of Environment, Forests and Climate Change I State Environment Impact Assessment Authority I State Pollution Control Board along with the Six-Monthly Compliance Report.
PPs Submission: Agreed to Comply Will be complied and maintained.		Date: 17/06/2026
40	Corporate Environmental Responsibility	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.

PPs Submission: Complied Environmental audit is conducted by HSE section every year. ISO Certification Audit (EMS 14001:2015) conforming EMP (Environment Management Plan) was done by Lead Auditor from external agency M/S Vexil. All observations/suggestions raised by the auditor were complied.		Date: 17/06/2026
41	MISCELLANEOUS	Short term need-based activities to be identified and implemented. Name of the beneficiary should be displayed at site.
PPs Submission: Being Complied Being Complied		Date: 17/06/2026
42	MISCELLANEOUS	The environmental clearance accorded shall be valid for a period of 10 years for the proposed projector till the exploration period whichever is earlier.
PPs Submission: Agreed to Comply Will comply and maintain.		Date: 17/06/2026
43	MISCELLANEOUS	This EC is issued for exploratory wells only and those wells shall not be converted to production wells without prior permission from State Environment Impact Assessment Authority.
PPs Submission: Complied A separate EC issued for 15 Development and Production wells and QPS system vide EC no. EC23A002WB139313, dated 13.04.2023		Date: 17/06/2026
44	MISCELLANEOUS	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
PPs Submission: Being Complied ONGC publishes in two local newspapers, and copy is submitted to WBPCB at the time of CTE/CTO.		Date: 17/06/2026
45	MISCELLANEOUS	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
